Projects

CareerHook - Job Portal <i>React, Clerk, Supabase, PostgreSQL</i>	Oct 2024 - Nov 2024
<ul style="list-style-type: none">CareerHook features a comprehensive range of job listings, allowing employers to post vacancies and job seekers to apply easily, fostering a dynamic job market environment.It utilizes React for frontend, Clerk for secure authentication and user management, ensuring data protection and a seamless login experience.The platform uses Supabase for backend, integrating with PostgreSQL for data management, deployed on Vercel. Url: https://careerhook.vercel.app	
Portfolio <i>NextJS, Shadcn UI, Figma</i>	Jan 2024 - Feb 2024
<ul style="list-style-type: none">Crafted a visually engaging and a fully responsive portfolio that highlights my skills and projects effectively, utilizing Next.js framework and Shadcn UI.This portfolio is seamlessly deployed on the Vercel platform, ensuring optimal performance and accessibility. Url: https://praveenr.vercel.app	
Faculty Subject Expert Management System <i>MongoDB, ExpressJS, ReactJS, NodeJS</i>	Mar 2023
<ul style="list-style-type: none">Developed a MERN stack application to efficiently manage and organize faculty and subject matter information.This solution greatly improves upon the previous manual ways of storing faculty information by streamlining the process of saving and retrieving data, simplifying the creation of comprehensive reports.	

Technical Skills

Languages: Java, JavaScript, SQL
